SEVERE WEATHER IN KANSAS CAN SOMETIMES OCCUR WITH LITTLE OR NO ADVANCE WARNING. YOU SHOULD HAVE A PERSONAL PLAN IN PLACE TO HELP PROTECT YOURSELF IN THE EVENT OF A SEVERE WEATHER OUTBREAK. IMMEDIATE EVACUATION FROM THE RIVER POND AREA MAY BE IMPRACTICLE DEPENDING ON THE SEVERE WEATHER EVENT. THE FOLLOWING ACTIONS MAY BE TAKEN AS PART OF YOUR PLAN:

- **LIGHTNING:** SEEK SHELTER IN YOUR VEHICLE WITH WINDOWS ROLLED UP OR IF NO VEHICLE IS AVAILABLE IN A LOW LYING AREA AWAY FROM TREES OR ITEMS OF HEIGHT THAT MAY ATTRACT LIGHTNING
- **THUNDERSTORM WARNING:** SEEK SHELTER WHICH MAY INCLUDE GETTING INSIDE A VEHICLE AWAY FROM TREES, FINDING A LOW LYING AREA AWAY FROM TREES, OR IF TIME AND TRAFFIC FLOW PERMITS FINDING SHELTER AWAY FROM THE RIVER POND AREA
- **TORNADO:** TAKE SHELTER! SOME CONCRETE STRUCTURES AND LOW LYING AREAS ARE IDENTIFIED ON THE INCLUDED MAP, IF NO STRUCTURE IS AVAILABLE, FIND A LOW LYING AREA, OR IF TIME AND TRAFFIC FLOW PERMITS FINDING SHELTER AWAY FROM RIVER POND AREA

REMEMBER, IMMEDIATE EVACUATION FROM THE RIVER POND AREA AT TIMES MAY BE IMPRACTICLE. INJURIES CAN EASILY OCCUR FROM PANIC, WRECKLESS DRIVING OR DRIVING INTOXICATED. HAVE A PLAN, HAVE A DESIGNATED DRIVER IF INTOXICATED OR UNAVAILABLE TO DRIVE, KNOW THE LOW LYING AREAS AND DON'T PANIC.
